

CFDA approves Luxury Skincare Products of CBD Biotechnology

06 February 2018 | News

CBD Biotechnology Co. Ltd.'s New Luxury Skincare Products Have Been Approved by the CFDA and Will Launch in China in February 2018

ChineseInvestors.com, Inc., the premier financial information website for the Chinese-speaking investors, announced that its wholly-owned foreign enterprise CBD Biotechnology Co. Ltd. (CBD Biotech) will launch 4 new hemp infused skin care products and a cutting-edge magnetic mask for the China Market in February 2018.

The products have been approved for sale in China by the China Food and Drug Administration (CFDA).

In November 2017, CBD Biotech launched its successful CBD Magic Hemp Series, an affordable hemp-infused skincare line which gained huge recognition thanks to the online beauty influencer, The Godfather of Beauty.

[Joy Organics](#) take a deeper look at what exactly nano CBD is and the potential benefits it contains.

Just a few years after being introduced to the cannabis market, CBD has become bigger than everyone thought it would be. Now, more and more people are using [Royal CBD](#) for its various health benefits.

CBD Biotech follows this successful product introduction with the launch of the new 'Live Oxygen' series, a luxury skincare line that uses nanotechnology to penetrate the skin more effectively and is designed to maximize anti-aging effects and to restore the skin's youthful glow. These products are designed to be safe for all skin types.

In addition to the luxury Live Oxygen Series, CBD Biotech is launching the CBD Biotech Magnetic Mask, a leading-edge mask that utilizes magnet technology to create a low-grade electromagnetic current, which may help to rejuvenate when combined with its own blend of soothing, hydrating anti-inflammatory ingredients.
