Dubai and Abu Dhabi based Camali Clinic Child and Adult Mental Health has announced a collaboration with the world renowned Tavistock and Portman NHS Foundation Trust, London, UK to bring the Tavistock's popular and award-winning training courses to the UAE.

The Tavistock and Portman NHS Foundation Trust is a specialist mental health trust with a focus on training and education alongside a full range of mental health services and psychological therapies for children and their families, young people and adults.

Starting in 2018, the courses offered will include bespoke programmes for professionals in senior leadership and management positions as well as general courses on multidisciplinary practice suitable for clinicians, counsellors, teachers, social workers and nurses working with children and families.

Camali Clinic is a consultant led, multidisciplinary mental health service for child and adults suffering from emotional, behavioural, learning or relationship difficulties including Anxiety and Mood Disorders, Attention Deficit and Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), Bipolar Disorder, Depression, to name a few.
