

Alfardan Group launches 'Alfardan Medical with Northwestern Medicine'

28 January 2019 | News

Alfardan Medical with Northwestern Medicine will be located at the Burj Alfardan in Lusail, and will occupy 11,000 sqm over six dedicated floors. The clinic's medical staff and clinicians will be a specialized team of multinational professionals including many from the U.S.

Alfardan Group has ventured into Qatar's medical services sector with the launch of the *Alfardan Medical with Northwestern Medicine*. Alfardan Group unveiled the new project at a press conference held at Northwestern University, Qatar.

The *Alfardan Medical with Northwestern Medicine* will offer patients a wide variety of ambulatory care services later this year – a first-of-its-kind in Qatar. This is the first of the Alfardan Group's investments in the health sector, as part of its social responsibility towards the State of Qatar and its vision to develop projects that will contribute to the realization of the Qatar National Vision.

Chicago-based Northwestern Medicine is one of the United States' premier academic health systems, anchored by Northwestern Memorial Hospital, one of the top ranked hospitals in the United States. The Northwestern Medicine health system is affiliated with Northwestern University Feinberg School of Medicine, ranked as one of the best research-oriented medical schools.

Alfardan Group carried out a rigorous assessment of health care systems with the appropriate medical expertise and reputation prior to selecting Northwestern Medicine to provide the guidance, oversight and advice for both the construction and operation of the new Facility.

Alfardan Medical with Northwestern Medicine will be located at the Burj Alfardan in Lusail, and will occupy 11,000 sqm over six dedicated floors. The clinic's medical staff and clinicians will be a specialized team of multinational professionals including many from the U.S. The new and valuable addition to private healthcare services in Qatar will also enhance Qatar's position in the field of medical tourism in the region.

Experienced, high-caliber physicians will provide the best levels of health care at the ambulatory care center in various

medical specialties, including: ophthalmology, orthopedics, reproductive endocrinology, sleep medicine, dentistry, internal medicine, gastroenterology, ENT, dermatology as well as cosmetic and reconstructive surgery, physical medicine and rehabilitation, and diagnostic services.

Alfardan Group's entry into the medical sector marks the opening of a new chapter in the Group's success as one of Qatar's pioneering business leaders for over 60 years, which has seen Alfardan Group grow to become one of the premier family-owned conglomerates for several business lines in the region.

Alfardan Group continuously pursues growth opportunities that contribute to national interests and the Qatar National Vision to diversify the economy and promote sustainable development.
