

Medicines Australia honors talent in pharma sector

11 March 2019 | News | By Manbeena Chawla

A total of 1,205 students participated in CEP in 2018 by enrolling in one or more of the six available programmes.

Medicines Australia recently recognised the extraordinary talent in the Australian Pharmaceutical sector workforce at the 22nd Annual Continuing Education Programme (CEP) Awards.

This mandatory programme highlights the innovative pharmaceutical industry's diligent commitment to ethical conduct and to the training and supporting the highly skilled and dedicated Medical Representatives. A total of 1,205 students participated in CEP in 2018 by enrolling in one or more of the six available programmes.

These representatives of the innovative pharmaceutical industry have the important job of ensuring the dialogue between the companies who make the medicines and the doctors that prescribe them is productive, balanced and ethical.

The CEP Award winners, and all those who participated in the programmes have shown their commitment to providing accurate, balanced information in an ethical manner that will enhance the quality use of medicines in Australia.

CEP award recipients:

Code of Conduct – Outstanding Achievement Award

This award is presented to the candidate who achieves the highest mark in Program 1, the Code of Conduct Program.
