

## Shanghai to host the third China Pharma Week

01 April 2019 | News

**It will cover themes of Leadership, Business, Networking, Recognition, Knowledge, and Innovation of the pharmaceutical industry**

As a high-end conference and event week specially launched concurrently with CPhI China, organized by UBM EMEA, CCCMHPIE, and UBM Sinoexpo, China Pharma Week will take place for the third time this year on June 17 - 21 in Shanghai. It will cover themes of Leadership, Business, Networking, Recognition, Knowledge, and Innovation of the pharmaceutical industry.

The conferences thereof will cover extensively, including analysis of Chinese and foreign pharmaceutical regulations and new policies, analysis of markets of key export countries, and sharing of experience in overseas market development; and the events will be diversified, from the heavyweight industry selection, enterprise executives networking dinner, to Innovation Gallery, and discovery tour.

People in each link of the pharmaceutical industrial chain will be able to gain high-end social connections amid the quality environment for business cooperation and negotiation, through the all-round, high-level, in-depth, and multi-angle digging at the over 20 conferences and events in 5 days.
