

ASTRI's cervical cancer screening system receives recognition

07 April 2019 | News | By Manbeena Chawla

ASTRI's CCSMS is a convenient, effective and accurate scalable computer-aided diagnostic platform.

The Cervical Cancer Screening Management System (CCSMS) developed by the Hong Kong Applied Science and Technology Research Institute (ASTRI) has won the Smart Living (Smart Healthcare) Silver Award at the recently conducted Hong Kong ICT Awards 2019.

ASTRI's CCSMS is a convenient, effective and accurate scalable computer-aided diagnostic platform. The CCSMS application enables the user to process and view medical images from different vendors and image formats, provides assistant diagnosis recommendations for the doctor's reference.

It also allows healthcare professionals to have remote medical diagnosis. The solution has been commercialised through one of the largest diagnostic service providers in the Mainland China and Hong Kong.

Hong Kong Applied Science and Technology Research Institute Company Limited (ASTRI) was set up by the Government of the Hong Kong Special Administrative Region in 2000 with the mission of enhancing Hong Kong's competitiveness in technology-based industries through applied research.
