

Fresenius Medical Care brings affordable dialysis to Cambodia

18 October 2019 | News

The new dialysis clinic at HMC is Cambodia's first dialysis center of excellence

Germany based Fresenius Medical Care, the world's leading provider of dialysis products and services, has collaborated with Hebron Medical Center (HMC) to bring high-quality, affordable dialysis treatment to Cambodian patients.

The new dialysis clinic at HMC, which will be Cambodia's first dialysis center of excellence, has officially opened. After reaching full capacity the center will be equipped with 24 Fresenius Medical Care dialysis machines, the clinic will offer advanced dialysis therapies to help meet the country's growing demand to provide treatment access for people with the greatest need.

Dignitaries from local authorities and distinguished guests participated in the official opening of the hemodialysis center today, including Their Excellencies, Dr Yim Chhay Ly, Deputy Prime Minister and Chairman of the Council for Agricultural and Rural Development of Cambodia; Sear Huon, Secretary of State from Ministry of Health; Dr Hang Chuon Naron, Minister of Education, Youth and Sport; Kim Jimin, Acting Ambassador of Korea to Cambodia, and Christian Berger, Ambassador of Germany to Cambodia; as well as Dr Lim Young Jin, President, Korean Hospital Association. The opening included a clinic tour and product demonstration.

For the first time in Cambodia, dialysis treatment will be available using a range of advanced dialysis options. The clinic will also boast the latest water treatment and hot disinfection system, ensuring a sterile dialysis process for the best possible patient outcomes.
