Zebra Medical Vision to bring more AI to diagnostic imaging

November 25, 2019 | News

Zebra-Med's AI1Ã¢â??Â¢ Ã¢â?¬Å?all in oneÃ¢â?¬Â• bundle will be available on the NuanceÃ?Â® AI Marketplace to support functions dedicated to radiology

Israel based Zebra Medical Vision, the deep-learning medical-imaging analytics company, announced that its AI1™ “all-in-one” bundle of AI products will be available on the US based Nuance® AI Marketplace. Nuance offers the first and largest portal with one-stop access to a wide range of AI diagnostic models from within the industry’s most widely used radiology-reporting platform.

The bundle will include some of the following solutions:

Ã¢â??Â• **Stat.AI™:** A multi-modality AI triage solution for the head CT package, in order to identify suspected intracranial hemorrhage (ICH), and a chest X-ray package for identifying suspected pneumothorax. Both products are FDA cleared and CE marked.

Ã¢â??Â• **Population Health:**

Ã¢â??â?¹ **Bone Health** package for identification of vertebral compression fractures which is key for indicating potential osteoporosis fractures, and serves bone health programs. CE marked.

Ã¢â??â?¹ **Cardiology** - FDA cleared, automatic identification of coronary calcium.

Ã¢â??Â• **Oncology**: Breast Cancer package with an automatic AI Triage mammography solution that indicates “suspicious” versus “non suspicious” for usage in diagnostic 2D mammography. The mammo CAD solution is CE marked and the Triage solution is currently for investigational use only.
