

## Fullerton Health strengthens position in Australia with recent acquisition

02 February 2021 | News

**The acquisition of Capstone Health sees Fullerton Health Australia continue to build on its national growth plans**

Leading healthcare provider Fullerton Health has further strengthened its position in Australia with its recent acquisition of Western Australia (WA) based Capstone Health.

Capstone Health provides specialist medical and emergency services to the energy, mining, and infrastructure industries, and has been acquired by Fullerton Health Australia's remote services division Baseline Group.

The acquisition of Capstone Health sees Fullerton Health Australia continue to build on its national growth plans. The business significantly extends its onsite medical services capabilities, and the addition of the Wembley clinic expands its WA network to 6 dedicated occupational health clinics, 8 primary care clinics, and 4 skin cancer clinics.

Fullerton Health Australia will commence the integration process of Capstone Health with Baseline Group, with a view to expanding and enhancing its onsite healthcare service offering, which principally involves delivering medical services in remote onshore and offshore sites.
