Mamoru Marketing brings world first intelligent air purification machine

February 5, 2021 | News

It is the world's first professional-grade intelligentÃ?Â ClO2Ã?Â air purification machine that will eliminate 99.9 per cent of bacteria, smoke, odours, and more

Mamoru Marketing, the exclusive distributor of Ecom products in Singapore, is introducing a new product to protect families in 2021. The big brother of the EA Mask, the Ecom Mask 030 Plus Disinfection Air Purifier has 10 unique features that differentiate itself from the competition. It is the world's first professional-grade intelligent ClO2 air purification machine that will eliminate 99.9 per cent of bacteria, smoke, odours, and more, ensuring the users and their families will be breathing the best air of their lives.

With the largest coverage of 1,000 square feet (the size of a 4 room HDB apartment), the Ecom Mask 030 Plus Disinfection Air Purifier uses 4-in-1 filtration technology, as well as displays that will show users the exact number of days to change the filters. The display will even show users immediately in precise PM2.5 recordings how the air quality has improved. It can even be wall-mounted to save space and is whisper-quiet at 25db.

Customers can bring the Ecom Mask 030 Plus Disinfection Air Purifier home for an introductory price of just S$1,280 (usual price S$1,800). This also includes a free Care Kit worth S$119. Mamoru is implementing a monthly rental scheme so the users can enjoy the Ecom Mask 030 Plus Disinfection Air Purifier's benefits at just S$70 a month with a minimum 3-month contract.

Ecom Mask 030 Plus Disinfection Air Purifier is FDA (US Food and Drug Administration) registered, CE marked (European Economic Area) and certified by CQC (China), PSE (Japan) & IEC (United Kingdom).
