

Watch On Demand : STARLIMS Webinar

April 15, 2021 | News

More than ever, laboratories need solutions to help them efficiently capture and parse documents and data, reducing the tedious, time consuming and error-prone manual data entry. For organizations considering a digital transformation strategy, the Scientific Data Management System (SDMS) can be a key element when it comes to moving away from paper-based documents while keeping data integrity.

The letters "BSA" in a large, bold, red serif font, centered within a white square that has a red border.

In this webinar you will:

- Learn more about how STARLIMS SDMS can support your organization through powerful instrument integration.
- Discover how STARLIMS can support organizations with an existing LIMS lacking SDMS capabilities and organizations without a LIMS.
- Understand why the SDMS is the right solution for organizations that want to have a single source/repository for scientific data.
