Global Healthcare Accreditation partners with Ratchaphruek Hospital in Thailand

October 14, 2021 | News

To support businesses with best practices regarding safety, health, and well-being

US-based Global Healthcare Accreditation (GHA), The Khon Kaen Chamber of Commerce and Ratchaphruek Hospital have announced the signing of a Memorandum of Understanding (MoU) to support local businesses in the province of Khon Kaen, Thailand with best practices regarding safety, health, and well-being.

Through this innovative partnership, GHA will collaborate with the Khon Kaen Chamber of Commerce (KKCC) and Ratchaphruek Hospital (RPH) to assist organizations and businesses throughout the province in the development, planning and execution of policies and procedures for transitioning to and maintaining a safe, healthy work environment that fosters the well-being of employees, clients and guests.

Additionally, the partnership will facilitate the development of best practices regarding medical and wellness travel.

With the collaboration of Ratchaphruek Hospital, a GHA certified hospital which has achieved Certification of Conformance with best practices for COVID-19, businesses will learn directly from Rachaphriueks' expertise and knowledge about the mitigation of infection risk and how best to prevent infection and protect their employees, clients and guests.
