Opens ZBEdge Customer Experience Centre in Singapore

US-based Zimmer Biomet Holdings, Inc. has announced the opening of the ZBEdge Customer Experience Centre (CEC), a unique facility located at the company's Asia Pacific regional headquarters in Singapore.

The ZBEdge Customer Experience Centre is a state-of-the-art facility that showcases Zimmer Biomet's latest technologies – ROSA robotics, mymobility digital health platform, OrthoIntel intelligence platform, OptiVu Mixed Reality along with the company's legacy orthopaedic implants.

Serving healthcare professionals, business partners and surgeons in Asia Pacific region, the CEC aims to offer a collaborative environment that will enable Zimmer Biomet to partner with healthcare professionals, academic associations and relevant institutions to develop impactful healthcare solutions and to host surgical and clinical trainings leveraging on Zimmer Biomet's connected technology ecosystem. It is Zimmer Biomet's first such centre in the region.
