Tainted CDSCO official under CBI net for bribery charges

June 22, 2022 | News

Recent corruption charges against the CDSCO, Synergy Network India and Biocon Biologics have put to the fore to look minutely into the core of the issues and eradicate tainted officials from the system

The Central Bureau of Investigation (CBI) in India recently arrested Joint Drugs Controller S Eswara Reddy and Dinesh Dua, Director at Synergy Network India who allegedly took part in bribery. Also in the news was L Praveen Kumar, the Associate Vice President of Biocon Biologics.

Reddy, posted at the Central Drugs Standard Control Organisation (CDSCO) in New Delhi and Dua were recently nabbed during a trap operation by the CBI while the alleged bribe exchange was going on.

CBI also filed FIR against Guljit Sethi, Director, Bioinnovat Research Services, as well as Assistant Drug Inspector Animesh Kumar under IPC sections of criminal conspiracy, cheating, forgery and corruption.

Biocon came up with clarifications on the recent happenings. Kiran Mazumdar Shaw, CMD, Biocon said, "It is unfortunate that Biocon Biologics has been named in this controversy. We reiterate that we strongly condemn all acts of bribery and corruption and have been cooperating with the investigation agency."

Shares of Biocon tanked after allegations of bribing. Stocks traded down 3.66 per cent at Rs 313.20 on the BSE.

CDSCO which till now has been respected for its way of handling the core issues of the sector had its image marred with corrupt officials taking things for granted.
