Thailand LAB, Bio Asia Pacific, and FutureCHEM 2022 kick starts in Bangkok

September 15, 2022 | News

The three-day international exhibition for the laboratory, life sciences & biotechnology, and chemical industries is attracting industries, investors, and business collaboration from the 14th to 16th of September

Thailand has officiated its granduer exibition and conferences with the launch of Thailand LAB INTERNATIONAL, Bio Asia Pacific, and FutureCHEM INTERNATIONAL 2022 forums at BITEC, Bangkok. Deputy Prime Minister of Thailand, Dr Suwit Khunkitti, officiated the trade fair of the life sciences & biotechnology and the chemical industries. Enriching conferences and meetings are waving at the visitors to share their insights in the 3 day event from 14th to 16th September.

The exhibition has created an exclusive forum for the laboratory, life sciences, biotechnology and chemical industries. Managing Director of VNU Asia Pacific, Igor Jan Palka, Deputy CEO and Acting CEO of TCELS Dr.Chairat Uthaipibull, and the President of Science and Technology Trade Association Yongyut Gidadhanapon welcomed the visitors and participants in the inauguration session.

'TCELS proudly presents “Bio Asia Pacific 2022” under the theme “The Power of Collaboration in Pushing Forward the Laboratory & Life Sciences Industries” which is seen as a significant step for the life sciences and medical industries in Thailand. TCELS, as the main organizer of Bio Asia Pacific, has brought trend setters, industry leaders and investors from around the world to participate in the event through virtual platforms.' said Dr. Chairat Uthaipibull, Acting CEO of TCELS.

The event witnessed MOU Signing Ceremony between Thailand Institute of Scientific and Technological Research and Thailand Center of Excellence for Life Sciences (Public Organization) at the LAB & BIO Square, the main stage of the show.

Participats are exploring the market opportunities and business prospects under the theme “The Integration of Technology and Innovation Platform for Laboratory, Life Sciences and the Chemical Industry in the Asia Pacific Region”. A wide range of analytical laboratory equipment and instruments, life sciences, biotechnology and the chemical industry trends and innovations are highlights of the show.

'We aim to provide the perfect platform for business collaboration and investment through our Business Matching Program, the Hosted Buyer Program and our Networking Night” says Igor Jan Palke, Managing Manager of VNU Asia Pacific.

Thailand is aspiring to drive growth in the region through innovation-driven industries, R&D, and investments aimed at stimulating ecosystems. More than 500 brands from leading companies and their innovations with novel laboratory products and Biotechnology business solutions are awaiting visitors.
