BOGE expands nitrogen and oxygen generators portfolio

August 11, 2023 | News

BOGE has collaborated with INMATEC to expand the product portfolio of compressed air to aid pharmaceuticals and healthcare sectors

Germany’s leading manufacturers of compressors and compressed air systems, BOGE has collaborated with INMATEC to expand the product portfolio of compressed air specialists. Boge's nitrogen and oxygen generator range will expand even further in the future.

BOGE KOMPRESSOREN Asia Pacific Pte Ltd located in Singapore has confirmed the aquisition.

BOGE has taken over INMATEC GaseTechnologie GmbH & Co. KG, one of the leading manufacturers of nitrogen and oxygen generators as of 1st August 2023. INMATEC installs and manufactures systems for global use, they will remain an independent business unit located in Herrsching and will continue to trade under the name INMATEC.

The acquisition of INMATEC will expand BOGE's product portfolio, allowing it to meet more diverse and industry-specific needs in the future.

In collaboration with INMATEC nitrogen and oxygen generators, BOGE will extend its services to food & beverage, pharmaceuticals, plastic, injection molding, mining, chemicals, pulp & paper, waste-water treatment, laser cutting, metalworking, packaging and healthcare sectors, among others, from both companies.

“Advanced catalytic processes for nitrogen generation can reduce energy costs by 50%,” adds Nalin Amunugama, General Manager of BOGE Kompressoren Asia Pacific.
