HMI Medical expands urology collaborations to meet regional demand

October 11, 2024 | News

With Advanced Urology Associates, HMI Medical further enhances their one-stop healthcare capabilities to meet the increasing demand for easily accessible specialist and sub specialist care in every aspect of urology

Health Management International Pte Ltd, a growing regional private healthcare provider with presence in Singapore, Malaysia and Indonesia, announces a new partnership with its fifth specialist group by acquiring a majority stake in Advanced Urology Associates, the largest private urology specialist group in Singapore.

This partnership will strengthen HMI Medical's specialist service offerings and will be added to its' existing portfolio of specialist groups: Eagle Eye Centre, Eagle Aesthetics and Surgery, Harley Street Heart & Vascular Centre, and The Orthopaedic Practice and Surgery.

The latest addition of Advanced Urology aligns with HMI Medical's growth strategy in Singapore, which focuses on providing quality and patient-centred healthcare services outside of hospitals that are convenient and delivers value.

"With Advanced Urology as growing portfolio of specialist services as we seek to enhance urology care against the backdrop of a fast-aging population. With an aligned vision and the collective track record of Dr James Tan, Dr Gerald Tan, Dr Lewis Liew and their team of highly skilled urology specialists, we can continue to spark change for the future of healthcare together", said Chin Wei Jia, Group CEO at HMI Medical.

Headquartered in Singapore, HMI Medical (previously known as HMI Group) is a growing regional private healthcare provider with over 25 years of experience across Singapore, Malaysia and Indonesia. In Singapore, the Group operates 45 primary care and health screening centres, 21 specialist centres, an 11-storey ambulatory care centre, and manages a panel of 1,500 primary and specialist clinics through its medical benefits administrative network.
