Smart City Summit & Expo 2025 Opens in Taipei, Driving AI Innovation, Smart Healthcare, and Urban Infrastructure

March 18, 2025 | News

Global leaders, policymakers, and industry experts convene to discuss smart governance, sustainable solutions, and digital transformation for the cities of tomorrow.

The **Smart City Summit & Expo (SCSE) 2025**, Asia's leading platform for smart city innovation, officially launches today at the Taipei Nangang Exhibition Center, uniting global policymakers, industry leaders, and technology pioneers to shape the future of urban development.

This year's **inaugural ceremony** features esteemed speakers, including:

- **Mr. Gábor Kiss** – Chief Advisor on Foreign Affairs to the President, **Hungarian Chamber of Commerce and Industry**
- **Mr. Charles Lin** – Deputy Mayor, **Kaohsiung City Government, Taiwan**
- **Mr. Jiunn Shiow Lin** – Director General of Administration (Digital Industries), **Ministry of Digital Affairs (MoDA), Taiwan**
- **Mr. Steven M. Neuhaus** – County Executive, **Orange County (NY), United States**

These distinguished leaders shared insights on **AI-driven governance, smart healthcare, digital transformation, and global smart city collaborations**, reinforcing SCSE 2025 as a crucial platform for knowledge exchange and innovation.

Key Insights from Distinguished Speakers

Mr. Gábor Kiss – Chief Advisor on Foreign Affairs to the President, Hungarian Chamber of Commerce and Industry

"The Smart City Summit & Expo is a testament to the power of cross-border innovation. Hungary is committed to fostering global partnerships in smart city development, leveraging AI, IoT, and digital governance to create sustainable and future-ready urban environments. We see immense potential in collaborating with Asia-Pacific nations to share best practices and develop solutions that benefit communities worldwide."

Mr. Charles Lin – Deputy Mayor, Kaohsiung City Government, Taiwan

"Kaohsiung has been at the forefront of smart city innovation, integrating 5G, AI, and big data to create efficient public services, sustainable infrastructure, and improved healthcare systems. As we stand at the crossroads of technological advancement, SCSE 2025 provides a critical platform for cities to learn from one another and drive meaningful transformation. Taiwan remains committed to leading the charge in smart governance and sustainable urban planning."

Mr. Jiunn Shiow Lin – Director General of Administration (Digital Industries), Ministry of Digital Affairs (MoDA), Taiwan

"Digital transformation is no longer a choice but a necessity. At the Ministry of Digital Affairs, we are accelerating Taiwan's smart city agenda by fostering innovation in AI-driven governance, digital security, smart healthcare, and urban infrastructure. SCSE 2025 serves as a bridge between industries and governments, enabling collaboration that will define the cities of tomorrow."

Mr. Steven M. Neuhaus – County Executive, Orange County (NY), United States

"The future of smart cities lies in strategic global partnerships and the adoption of digital solutions that improve citizens' lives. In the United States, we are focused on integrating advanced technologies for smart healthcare, mobility, energy efficiency, and public safety. The Smart City Summit & Expo offers a crucial opportunity to explore synergies between nations, ensuring we build smarter, more resilient urban environments together."

Key Themes & Event Highlights

- **Smart Governance & AI Integration** – Enhancing urban management with AI-powered decision-making, public services, and citizen engagement.
- **Green & Sustainable Solutions** – Addressing climate resilience with smart energy, carbon-neutral initiatives, and eco-friendly infrastructure.
- **Future Mobility & Smart Infrastructure** – Featuring next-gen EV ecosystems, autonomous transport, and 5G-enabled smart mobility solutions.
- **Smart Healthcare & Digital Services** – Showcasing AI-assisted diagnostics, telemedicine, smart hospitals, and digital health innovations.
- **Global Smart City Collaboration** – Strengthening partnerships between cities, businesses, and governments for a more connected world.

SCSE 2025 is set to attract **over 600 exhibitors, 150 city representatives, and 200 expert-led sessions**, making it a premier global event for smart city advancements. The expo will also feature **Taiwan's Smart City Pavilion**, showcasing the nation's leadership in **digital transformation, AI-driven urban solutions, and smart healthcare innovations**.
