

## NephroPlus to open dialysis centre in Saudi Arabia by December 2025

03 February 2025 | News

**NephroPlus has in total raised about Rs 1700 core in its journey of over a decade**

NephroPlus, Asia's largest dialysis network and a pioneer in redefining dialysis care with revenue touching Rs 750 crore for the year 2023-24, is set to open its centre in middle east countries by end of this year.

Vikram Vuppala, Founder and CEO of NephroPlus, said "We will be opening our centre in Saudi Arabia before December 2025. With this we will be expanding our presence in GCC countries and this will be our fourth country outside India. NephroPlus has dialysis centers in multiple countries, including the Philippines, Nepal and Uzbekistan."

He further added, "NephroPlus is a leader in dialysis care across Karnataka, with around 110 centers in government hospitals and 21 in private hospitals, ensuring high-quality, accessible care. Serving over 4,700 dialysis guests monthly, we focus on clinical excellence and a guest-centric approach. Our services include hemodialysis, peritoneal dialysis, and home dialysis, along with unique offerings like Holiday Dialysis, Dialysis on Call, and Dialysis on Wheels. Dedicated to improving lives, NephroPlus prioritises patient comfort through personalised care and flexible treatment options, redefining kidney care in Karnataka with innovation and compassion, one dialysis session at a time."

The company was established 15 years back with a vision to enable people on dialysis across the world to lead long, happy, and productive lives. The company treats ~32,000 patients per month. NephroPlus has in total raised about Rs 1700 core in its journey of over a decade and recording a growth of 12-15 per cent each year.

NephroPlus which has partnership with many Indian state governments including Karnataka, Bihar, Uttarakhand, Andhra Pradesh, and many public sector undertakings (PSUs) and public sector hospitals including All India Institute of Medical Sciences (AIIMS), Gorakhpur, Uttar Pradesh, operates 500+ dialysis clinics in more than 300+ cities across 5 countries and is known for its quality focus and patient-centricity.
