Premier Exhibition for Chemical Processing Industry to open in South Korea on April 22

April 12, 2025 | News

KOREA CHEM 2025 will bring together leading companies in the chemical processing industry

The 17th Korea International Chemical Processing Industry Exhibition (KOREA CHEM 2025), the leading event showcasing core technologies in the Chemical Processing Industry (CPI) in South Korea, will take place from April 22 to April 25, 2025, at KINTEX Exhibition Center 1.

As a specialised exhibition featuring essential chemical processing equipment and solutions for industries such as food, biotechnology, pharmaceuticals, cosmetics, fine chemicals, and batteries, KOREA CHEM serves as a platform for companies and industry experts to introduce the latest equipment and solutions while sharing insights to enhance production efficiency and quality.

This year, KOREA CHEM will expand its programme by strengthening its connection with the battery industry and incorporating an ESG Sustainable Packaging Forum to align with global sustainability trends.

Key Industry Leaders to Exhibit at KOREA CHEM 2025

KOREA CHEM 2025 will bring together leading companies in the chemical processing industry, featuring the latest advancements in processing automation and production efficiency. Exhibiting companies will showcase a variety of essential equipment such as dryers, granulators, mixers, pumps, and filtration systems, offering direct consultation opportunities with industry professionals.

Highlighted Exhibitors and Products:

?Jeonghyun Plant: Filter dryers and G/L equipment for enhanced chemical processing efficiency

?Dongbang Plantech: High-quality vacuum pumps ensuring stable processing operations

?KMJE: Distillation units, dryers, and reactors for chemical processing

?Well E&C: Glass reactors and temperature control systems for safe and precise chemical reactions

?Yuhan Ind: G/L reactor full sets for high-efficiency chemical processing

?Comp Korea: Industrial air compressors and dehumidifiers optimizing processing operations

?Korea Powder System: Grinding machines and powder processing technologies for the chemical and battery industries

?EMPC: Powder handling solutions enhancing quality in the pharmaceutical and battery industries

New Seminar: Powder Handling for the Battery Industry

A special seminar on powder handling technology for the battery industry will debut at KOREA CHEM 2025. Titled ‘Powder Handling for Battery Industry,’ this seminar will provide technical insights for battery manufacturers and research institutes. Topics will include optimizing powder processing technology, enhancing production efficiency, and improving safety in battery manufacturing facilities. The seminar will feature the founder of Switzerland-based DEC and will take place on April 24 at the KINTEX Exhibition Center 1 conference hall.

?Date: April 24, 2025 (Thursday) 10:30 AM

?Venue: KINTEX Exhibition Center 1, Seminar Room H

?Topics Covered:

- Powder technology applications for improved battery performance
- Optimization of powder processes to enhance productivity and quality
- Latest trends in battery processing safety and technology

Maximising Industry Synergy Through ICPI WEEK

KOREA CHEM 2025 will be part of ICPI WEEK (International Cosmetic & Pharmaceutical Industry Week), offering optimal networking and business opportunities for professionals in the chemical, processing, battery, pharmaceutical, and biotechnology industries. ICPI WEEK features the following exhibitions:

Kintex 1-

?KOREA CHEM: Chemical processing and fine chemical technologies

?ESG Pack: Sustainable packaging solutions

?COPHEX: Pharmaceutical, biotechnology, and cosmetics manufacturing & packaging

?KOREA MAT: Logistics, automation, and packaging solutions

?Korea ColdChain: Cold chain Solution

Kintex 2-

?KOREA PHARM & BIO: Pharmaceutical ingredients, drug development services, and biotech startups

?Cosmetic Inside Korea: Cosmetics raw materials, packaging, and services

?KOREA LAB: Laboratory research and analytical equipment

Through ICPI WEEK, KOREA CHEM 2025 participants will have the opportunity to explore cross-industry collaborations and gain insights from over 150 academic conferences, forums, and seminars.

Evolving to Meet Industry Needs

KOREA CHEM is transitioning beyond a traditional chemical equipment exhibition to become a premier event showcasing core processing equipment and technologies across multiple industries. With a strong focus on the battery industry, fine chemicals, pharmaceuticals, and biotechnology, KOREA CHEM aims to provide exhibitors with expanded business opportunities.

Pre-Registration and Transportation Information

KINTEX, the venue for KOREA CHEM 2025, is now more accessible with the opening of the GTX A train line, reducing travel time to just 16 minutes from Seoul Station. Additionally, the organizers will provide free shuttle services from Hapjeong Station (Line 2) and Daehwa Station (Line 3).

?Pre-Registration Benefits: Free admission (regular fee: KRW 20,000) and seminar application

?Pre-Registration Deadline: April 21, 2025 (Monday)

?How to Register: Visit the official website (www.icpiweek.org)

?Exhibition Hours: 10:00 AM - 5:00 PM (Closing at 4:00 PM on the last day)

Key Events at KOREA CHEM & ICPI WEEK

?Opening Ceremony & KOREA STAR AWARDS Government Award Ceremony

-Date: April 22, 2025 (Tuesday), 10:30 AM

-Venue: KINTEX 1, Hall 5 Special Stage (Seminar H)

?KOREA MAT Opening Ceremony

-Date: April 22, 2025 (Tuesday), 2:00 PM

-Venue: KINTEX 1, Entrance to Hall 2

?Battery Industry Powder Handling Seminar: April 24, 2025, KINTEX 1, Seminar Room H

?MFDS Pharmaceutical Policy Briefing: April 23, 2025, KINTEX 2, Seminar Room C

?GMP/Validation Quality Control Seminar: April 22-25, KINTEX 1 & 2

?Cosmetic Science Conference (CI KOREA CONFERENCE): April 23-24, KINTEX 2, Seminar Room B

?Global Cosmetics Regulatory Compliance Seminar: April 22, KINTEX 2, Seminar Room A

?KOREA LAB Research & Analytical Science Seminars: April 22-25, KINTEX 2

?ESG Sustainable Packaging Forum & Seminar: April 22-23, KINTEX 1, Seminar Room H & 2nd Floor Seminar Rooms

?DI Experience Zone & Seminars: April 22-25, KINTEX 1
