2nd World Companion Diagnostics & Liquid Biopsy Summit APAC | November 12-13, 2025 | Singapore

August 19, 2025 | News

With increasing demand for targeted therapies and testing access, the Asia-Pacific region is becoming a rising player in the co-development and commercialization of drug-diagnostic strategies.

Uniting 100+ precision medicine leaders from biopharma, diagnostic development, regulation, and healthcare institutes, the **2nd World Companion Diagnostics & Liquid Biopsy Summit APAC** returns to Singapore this November to help you innovate affordable, scalable, and timely testing solutions for patients across the region.

- Advance novel biomarker discovery and validation in solid and hematologic tumors
- Navigate regional and global biomarker-driven trials with centralized and decentralized vendor networks
- Uncover precision medicine applications in chronic, chronic and rare diseases with gene panels, digital and multiplex biomarkers
- Decode IVD regulation and commercialization across fragmented APAC regulations and shifting global LDT and IVDR compliance
