Mindray and HealthTrust renew agreement

Singapore: The HealthTrust Purchasing Group is renewing its agreement for the entire range of physiological patient monitoring equipments with China-based Mindray Medical.

According to this agreement, Mindray, which is a leading developer, manufacturer and marketer of medical devices, would provide monitoring to all hospital departments and outpatient surgery centers for HealthTrust members. The new V-Series modular monitor line with large touch screen interfaces and industry-leading connectivity platforms are also included in the agreement.

"We are very pleased to extend our relationship with HealthTrust so that their members can continue to access our expanding product line," said Mr Wayne Quinn, VP, critical care monitoring, Mindray North America.
