Imager-37 pillow

Company: Seda Chemical Products

Dimension of 65x42x13 cms

Weight 2.6 kgs

1. Temperature-sensitive and pressure relief materials: adopted high density material and molding technique
2. Design for back sleep and side sleep: fully support neck and shoulders
3. Oval-shaped design: oval-shaped design on dual side relieves ear pressure for side sleep
4. Breathable surface design and eight breathable grooves make you feel cool and comfortable
5. Curved edge design fully supports neck and shoulders
6. Dual-sided design helps maintain side sleepers' sleep posture
7. Pressure relief design helps relieve face pressure for side sleep

The temperature-sensitive material varies its hardness with different temperatures. It reveals general hardness under room temperature. However, it becomes softer when it comes in contact with human body temperature.
