Exlites launches e-commerce website with core products

August 14, 2013 | News | By BioSpectrum Bureau

Singapore: Exlites Holdings launched its new online e-commerce website. The new website will be a convenient way for patients as well as medical professionals to order the necessary medical equipment in a timely and cost effective manner.

"In today's fast paced environment people are very busy and look fora convenient solution for their medical equipment needs. The ability for patients and medical professionals to order the products and medical equipment from the convenience of a personal computer is extremely valuable," said Mr Keith Anderson, Exlites Holdings, Marketing and Development.

Exlites website launched with core products that research has shown to be in great demand and affordably priced. The company seeks to source innovative medical products for its customers. The company is leveraging its relationships in China, Taiwan and Japan to provide its customers the most cost effective products designed with cutting-edge technology.
