China Biologic Donates Lifesaving Plasma Products for the Injured in the Yunnan Earthquake

Singapore:Ã?Â China Biologic Products donated 1,000 bottles of Tetanus immunoglobulin through its Guizhou Taibang subsidiary for those injured in recent devastating earthquake. The natural calamity struck Yunnan province, China, on September 7, 2012. Following this, the donation was made to the quake-hit region on September 8.

China Biologic Products is a leading, fully integrated plasma-based biopharmaceutical company in China.

Mr David Gao, chairman and CEO, China Biologic Products, said that, "As a leading plasma-based biopharmaceutical company in China, we treat life with great respect. It is part of our corporate social responsibility policy to help the needy when possible."

"We extend our condolence and best wishes to any families who have suffered through this tragedy and wish a prompt recovery for the quake-hit region and its people," he added.
