2015 Biotech China to be held in September

Singapore: The All China Biotech Conference and Exhibition will be held on September 21-23 in Nanjing International Expo Center. The event will welcome more worldwide famous exhibitors, hold more frontier conferences and forums in a bid to boost China's burgeoning biotech sector .

The event is sponsored by Nanjing Municipal Peoples' Government Exhibition Office and China Quality Association for Pharmaceuticals. Nanjing International Expo Center Hall covers an area of 168,000 square meters which be composed of eight single pavilions. The third phase of Nanjing International Expo Center will be built this year.

The event will exhibit the latest scientific research achievements and technologies from countries like United States, Germany, Australia, South Korea, Japan, Taiwan. The conference will also hold series of forums on various aspects of biotech growth, and will also have matchmaking and other high-quality concurrent events during the exhibition.
