ClinicAll enters cooperation partnership to launch sustainable market in UAE

November 4, 2019 | News

Dubai and the UAE are committed to introducing state-of-the-art digital healthcare solutions. It is a great honor for ClinicAll to enter this important partnership with the target to establish a sustainable market presence in the UAE and GCC region

ClinicAll International Corporation is excited to announce the strategic partnership with *The Private Office of Sheikh Saeed Bin Ahmed Al Maktoum* and *SEED Group*. SEED Group was founded in 2000 and is a diversified company operating in technology, healthcare, tourism & hospitality, and real estate.

Recently, Hisham Al Gurg, CEO of The Private Office of Sheikh Saeed Bin Ahmed Al Maktoum and the SEED Group, and Hermann Kamp, CEO ClinicAll International Corporation, officially concluded the cooperation.

Dubai and the UAE are committed to introducing state-of-the-art digital healthcare solutions. It is a great honor for ClinicAll to enter this important partnership with the target to establish a sustainable market presence in the UAE and GCC region.

ClinicAll International Corporation, based in New York, is dedicated to the integration of digital services at the point of care – the patient's bedside – to the benefit of patients and hospital staff. ClinicAll provides a software platform for hospitals that integrates several clinic-specific functionalities, as well as an app for iOS and Android devices.

Amongst several other international applications, ClinicAll healthcare infotainment systems are already operational in the Dr. Sulaiman Al Habib Hospital in Riyadh, Saudi Arabia. Here, ClinicAll developed a hospital-specific user interface, incorporating a total of 24 digital medical services. This project showcases the great potential of ClinicAll's software solutions.
