Innovaccer and Infinia Technologies form strategic alliance to power future of AI-driven healthcare in UAE

April 10, 2026 | News

To accelerate digital health adoption, and build scalable digital infrastructure

Innovaccer Inc., a leading healthcare AI company, and Infinia Technologies, a next-generation digital transformation company and a subsidiary of Sirius International Holding under Abu Dhabi's International Holding Company (IHC) Group, have announced a strategic alliance aimed at accelerating healthcare innovation across the United Arab Emirates.

The alliance underscores a shared commitment to advancing a digital-first healthcare ecosystem in the UAE, supporting the nation's transformation toward value-based, outcome-driven models of care. The collaboration combines Innovaccer's Healthcare Intelligence Platform and AI-powered healthcare infrastructure with Infinia's expertise in building sovereign, secure, and scalable digital platforms to drive the next era of healthcare modernisation across the region.

Together, the companies aim to redefine how healthcare data is unified, activated, and transformed into actionable intelligence enabling seamless interoperability, enhancing clinical decision-making, improving operational efficiency, and elevating patient outcomes across providers, payers, and government stakeholders. The strategic alliance aligns with the UAE's national healthcare vision and reinforces Abu Dhabi's emergence as a global hub for healthcare innovation, digital transformation, and advanced life sciences.
