India's Romsons Group announces strategic healthcare partnership with Temasek

September 23, 2026 | News

To expand its footprint, strengthen its product portfolio and build a globally relevant Indian healthcare enterprise

Romsons Group, one of India's leading brands in the medical devices and hygiene products sector, has announced the successful completion of a strategic private equity transaction with Temasek, a global investment company headquartered in Singapore.

The transaction marks a significant milestone in Romsons' 70-year journey and establishes a strong foundation for the company's continued expansion.

Temasek has joined Romsons as a long-term strategic partner through a minority investment, bringing together Romsons' strong Indian healthcare platform and operating capabilities with Temasek's global experience and long-term investment perspective.

The company's immediate focus will remain on strengthening its core business and investing across products, manufacturing, technology and people. Romsons will continue to build a stronger platform while responding to the evolving needs of healthcare markets in India and overseas.

As part of the partnership, Romsons and Temasek will also evaluate strategic partnerships and acquisitions in India and overseas where these are aligned with the company's objectives.
